WALKTROUGH INFO

This is the Sheep walkthrough (probably the only one on the NET). This walkthrough will teach you how to play Sheep and it will also give you some hints and cheat codes. The walkthrough is divided into 11 chapters:

CHAPTER ONE : Story
CHAPTER TWO : Basics
CHAPTER THREE : How to move the Sheep
CHAPTER FOUR : Powerups
CHAPTER FIVE : Select a character
CHAPTER SIX : Characters description
CHAPTER SEVEN : Types of Sheep
CHAPTER EIGHT : Avoiding enemies
CHAPTER NINE : Skill settings
CHAPTER TEN : Hints and tips
CHAPTER ELEVEN : Game Cheats

WALKTROUGH HISTORY

version 0.1 - written the top of document, only a few hints and tips
version 1.0 - written most of this guide, added more hints and cheats

STILL TO COME IN WALKTROUGH

This is probably the final version of this walkthrough. I maybe add world description, but that's not so important. If you want to add anything to this guide, e-mail me and I will post it in this guide, with full credit of course.

E-mail:

sheepwalkc@yahoo.com

CONTACT INFO

If you have any questions about this walkthrough or the game Sheep, e-mail me on:

sheepwalkc@yahoo.com

I will try to publish them in this walkthrough and reply back to you too.

NOTE: YOU CAN ONLY E-MAIL ME QUESTIONS THAT ARE NOT LISTED IN THIS GUIDE. IF I SEE A QUESTION THAT IS ALREADY LISTED IN THIS GUIDE, I WILL AUTOMATICLY DELETE IT WITH NO REPLY. TRY THE CTRL+F BUTTON TO SEARCH THIS DOCUMENT FOR THE THINGS YOU NEED.

CHAPTER ONE: STORY

=====

Millions of years ago, members of an advanced alien race were left on a young green Earth to observe the development of the primitive life forms.

As the years passed, the descendants lost sight of their lofty task and became one with their surroundings, indistinguishable from Earth creatures.

The indigenious population could not know that amongst them lived a vastly superior life force, one which has evolved from a mental and physical state, far beyond their comprehension ...

... SHEEP

CHAPTER TWO: BASICS

=====

It isn't so hard to learn how to play Sheep. You can choose amongst keyboard, mouse and joystick control. I advise to anyone who starts to play Sheep, that he first takes the tutorial missions in the game before starting to play the real missions in Sheep. If you do not know the controls, here are some of them:

Keyboard controls

Move forward	- Forward key
Move backwards	- Backward key
Move left	- Left key
Move right	- Right key
Hold one Sheep	- Go near Sheep and hold ALT key
Use items (candy)	- Spacebar key
Open fences	- ALT key

Mouse controls

Moving around - Move your mouse up, down, left, right

CHAPTER THREE: HOW TO MOVE THE SHEEP

=====

As you probably know from your life experience, Sheep do not move the way you want. The authors of this game tried to make an artificial Unintelligence. When you approach from the right, your Sheep move left. When you approach from the left, your sheep move right. You can even move the Sheep by holding them and bringing them to the end of the level. Here are a few hints on how to move the Sheep:

Hint 1 : Try the tutorials in the Sheep game. They help you a lot and you will know how Sheep react to your moves.

Hint 2 : You can always try to carry your Sheep. Using the ALT button near the Sheep, you can hold it and bring it to the end of the level.

Hint 3 : When you approach Sheep from the right (as said before) they go to the left. Try doing everything opposite what you plan to do. THIS HINT DOESN'T ALWAYS WORK. YOUR SHEEP MAY MOVE ANOTHER WAY.

CHAPTER FOUR: POWERUPS =====

There are some powerups in the game itself to move your Sheep more easy. You can use the RADIO (it starts when you pick it up), SHEEP follow you during this one. If you pick up a candy, you can place candies so Sheep will follow you. If you pick the GOLDEN GLOBUS in each level (four in each world) you can play a bonus level. So, let's repeat this one:

- CANDIES - You place candies and Sheep follow you in that path.
- RADIO - You pick it up and Sheep follow you constantly until its effect ends.
- GOLDEN GLOBUS - If you pick four golden globuses, you get a bonus level at the end of the world.

CHAPTER FIVE: SELECT A CHARACTER =====

Before you start to play Sheep, you can select a character (aka herder). There are four characters available:

BoPeep, Adam Halfpint, Motley and Shep. Each character has its own way of handling Sheep and its own way of cheat codes (see cheat section for more).

EXAMPLE: If you use SHEP, you can bite your Sheep when using cheat codes.

CHAPTER SIX: CHARACTERS DESCRIPTION =====

Each character has its own way of herding Sheep and its own way of cheats (see cheat section for more details). Here is a brief description of the characters:

BoPeep

As I can see, she is a male herder. She can hold sheep and bring them to the end of the level and she can scream to make them go faster.

Adam Halfpint

He is a male herder and he has the same capabilities as BoPeep, but

better cheat mode.

Motley

He is a sheep dog. He can guide sheeps and he can bark to make them go faster.

Shep

A really good name for a Sheep dog. He can also bark at sheep to make them go faster and he can bite them.

CHAPTER SEVEN: TYPES OF SHEEP

=====

There are four types of sheep that you must herd during one world. One type of sheep in one level and another one in the second. Each sheep react in their own ways to your moves.

EXAMPLE: The longwool sheep are slower, while the pastoral sheep react faster and move faster.

Here is a brief description of the types of sheep:

PASTORAL

The most regular sheep. They have white wool and react faster to your moves. That isn't always good. If an enemy is approaching and sheep react faster they can go right to them.

FACTORAL

They look the same as factoral sheep, but they have brown wool. They have the same capabilities and faults just like the pastoral sheep.

LONGWOOL

These sheep have a very long brown wool. They react slow to your moves and move slower than regular sheep.

NEOGENETIC

These are a very weird type of sheep. They have the same capabilities as the pastoral and factoral sheep, but they act very cool and they wear glasses.

CHAPTER EIGHT: AVOIDING ENEMIES

=====

You will encounter lots of enemies in the world. Here are some hints

on how to avoid them:

Hint 1 : If possible, hold one sheep and bring it to the end of the level.

Hint 2 : Try to use the hints I've told you in CHAPTER THREE.

Hint 3 : In the beginning, try to play on the easy skill. You have more time and more sheep.

Hint 4 : Try to find powerups. The radio is very useful and Sheep can follow you.

CHAPTER NINE: SKILL SETTINGS

=====

You can play Sheep on three skill settings:

EASY

As the name says, this is the easiest. You have more time and more sheep.

MEDIUM

Medium setting. I recommend to people that have already played Sheep.

HARD

For advanced players. You have less time and less sheep.

CHAPTER TEN: HINTS AND TIPS

=====

HINT 1 - MOTLEY

When playing any level with Motley if you press q,w,e in quick succession he will bite the sheep nearest to him causing it to jump over any obstacle.

HINT 2 - ADAM HALF PINT

Adam Half Pint can drop pints to get the sheep to follow him. Apparently you have to type pint really quickly while holding down Alt + Shift.

HINT 3 - MODERN PASTORAL SHEEP

The Modern Pastoral sheep can be made to follow any character by chasing them around the same object five times! Try this one at your own risk. If doing this one with Shep you run the risk making him puke.

HINT 4 - EASY LEVEL SKIP

Sometimes it's easier to just grab the sheep individually and carry them to the end of the map.

HINT 5 - EXPLORING

Make sure you explore the map as much as you can before setting out. It's often possible to find quicker paths to the end and you won't risk losing that many sheep.

HINT 6 - ALWAYS BE ON A LOOKOUT

Always be on the lookout for hint signs and for other sheep that will assist you in your efforts.

CHAPTER ELEVEN: GAME CHEATS

=====

To cheats in Sheep press ESC during gameplay and type any of these cheats:

IWANTTHEMALLANDIWANTTHEMNOW	- Sheep will follow you
FATSHEEP	- Sheep grow to 150% of their size
MINISHEEP	- Sheep shrink to half of their normal size
POOSHEEP	- Pastoral Sheep Poo instead of Graze
CANCELCHEATS	- Cancel any cheats entered

IV. F A Q

=====

This is the FAQ section of the walkthrough. Here there are described common questions by users and answers. If you want to e-mail your question, e-mail it and I will post the answer here. See the contact section for more details.

Question : Some of the cheats don't work in the game. Why?

Answer : There are later versions or earlier of Sheep that may not be compatible with some cheats.

Question : When I run the game it gives me an error message: DDRAW has committed ... What's wrong?

Answer : You probably don't have the latest Direct-X drivers installed. Install the latest drivers from www.microsoft.com

Question : My game keeps on crashing. What is wrong?

Answer 1 : Your computer may not be compatible with Sheep. Try updating your drivers.

Answer 2 : Your computer does not have the required requirements for Sheep. (P200, 32MB ram)

Answer 3 : If the top things don't work, reinstall Sheep or install a newer version of Sheep.

Question : When I run the game, the intro movie doesn't play and the game crashes. What shall I do?

Answer 1 : Reinstall the game.

Answer 2 : Try running the game without movies. (config section of game)

Answer 3 : Install BIK audio player (www.radgametools.com)

Answer 4 : Install a newer version of Direct-X (www.microsoft.com)

Answer 5 : Install the latest version of game (www.empireinteractive.com)

Answer 6 : If the top answers do not work, there is something wrong with your system or your PC does not meet the requirements for Sheep. Try updating your hardware.

V. FINAL WORDS

=====

So. It isn't so hard, is it. If you finish this game, let me know. In PC GAMER SLOVENIJA it was marked extraordinary game and the mark was 85%. For 40\$ this is a very fun game to play. Too bad there aren't any multiplayer modes. Well, you have enough work with single player episodes. This game is worth to try and it is also worth your money.

VI. OTHER CREDITS

=====

The cheats for Sheep were submitted from the CHEAT BOOK DATABASE (www.cheatbook.de)

Some hints for Sheep were also submitted from the CHEAT BOOK DATABASE (www.cheatbook.de)

VII. OTHER WALKTROUGH S

=====

If you are interested, I am also the author of these walkthroughs:

- Gabriel Knight, Blood of the Sacred, Blood of the Damned
- Unreal Full Walkthrough (includes enemies, items, weapons description) and a full walkthrough
- Quake III Arena Walkthrough

I do not have in plan to write any more walkthroughs, maybe one will pop up.
